GURUKULAM GLOBAL SCHOOL

(English Medium, Co-Educational: Affiliated to ICSE, New Delhi)

PROSPECTUS

Message.....

TODAY belongs to us....YESTERDAY was....TOMORROW will be.

Everyday is bursting with opportunities for us to do and to serve, to act and to express, to love and to live. We must make use of these lush chances and diligently make our life rich, fruitful and useful for others all times. When we have such a team of courageous and honest servants of God, the nation is made, the world is saved. Our generation has been called upon now to lead and guide the world, not in killing, not in destroying, not in warfare, but in learning and understanding the true knowledge.

We believe education is the birthright of every child. Every child is born with immense potentialities. Here we follow the Gurukulam system of education where no child is ever rejected, where the child is the center of every learning activity, where personal attention is given to every child focusing on physical, intellectual, emotional and spiritual strengths which are the four pillars of education.

With an open heart I am welcoming each of you to our institution where you can experience for yourselves how inspiration wells up from within.

Jasmer Boora
Chairman

About Us

Gurukulam Global School is an independent, privately-owned co-educational day school that provides International Programs through Central Board of Secondary Education, New Delhi from Early Child Education. We are committed to provide quality education that will equip every pupil with the knowledge and skills to meet the challenges of a changing society.

We believe effective learning is possible through practical ways of teaching. The ratio of teacher to student at the Gurukulam is about 1:30, which makes way for maximum individual attention. So good study habits are developed which are increasingly important as the child grows older and takes responsibility for his own learning. Our students pursue excellence through a hands-on, inquiry based, learning through discovery philosophy. They will accept the challenges of open-ended problem solving activities, effective communication, leadership, understanding and responsibility.

In this community, there are several opportunities for the holistic development of students. And the schooling system has been so designed to assure that every inmate in the Gurukulam develops the qualities of honesty, loyalty, resourcefulness, integrity, courage, sociability, self-confidence, cooperation, strength of character and leadership skills.

Your child's journey to a great future begins here.....

A Holistic Approach to Education

We, at Gurukulam Global School, look at children as individuals and not as a class. We groom and nourish each child independently, for all require distinct attention. We build an atmosphere where each child explores multiple activities, and experiences challenges to find his own strengths.

Gurukulam is an institution that looks beyond imparting just knowledge. It takes a holistic approach, focussing on the overall development of the child, by giving him an environment that nurtures and instils strong values of dignity, decency and respect for human life.

We believe in nurturing and enriching the mind and soul of the child. This is why we lay such strong emphasis on looking beyond the set parameters of bookish education.

Through activities like music, drama, sports and adventure, we help students find their inner strength, develop a high self-esteem and make them self-actualised individuals.

Experienced educationists, psychologists, teachers, artists and sports-people have come together to frame a curriculum that draws from the CBSE curriculum that has been especially designed to make it inclusive, where physical, emotional and mental needs are equally significant which Gurukulam adopt.

The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become winners. Modern infrastructure, continuous realignment of curriculum, pedagogy and committed and skilled teachers are the ingredients of Gurukulam - the next generation school.

Your child's journey to a great future begins here.....

Unique Method of Teaching

Melting Pot Learning Approach

A core belief at Garukulam is that no single method of instruction is all comprehensive. Hence, we have come up with the Melting Pot Approach which uses both -traditional as well as progressive methods of instruction to develop a well rounded curriculum.

Project Based Learning

Project based learning provides a platform to the child to showcase his/her latent talents and inventiveness. Projects in 'Maths' and 'Science' ensure long term learning and clarification of concepts. It also gives an opportunity to the passive learners and makes teaching fun. Children are required to work on projects from the very beginning of their schooling. The topics are diverse and the complexity level changes as the children grow up.

Holistic Education Delivered in Tech-Smart Classrooms

The teacher is today a "knowledge facilitator" rather than a "knowledge provider". This is possible with the help of videos & other technological means.

Garukulam campus is Wi-Fi enabled; the wireless network connects all computers with the internet through a leased line. Teachers and students have access to research based learning anytime, anywhere. The learning atmosphere created in Garukulam is a sum total, delivering core concepts through the best possible technology. This not only enables effective learning, but also creates technical skills in students at a very young age.

Student Centered Learning

We understand that different individuals have different aptitudes. We understand that every child can be benefited by the implementation of some or the other intelligence. By using the strongest aptitudes or 'intelligences' as a starting point, our educators educate more effectively by teaching different students the same topic in different ways, according to their particular 'intelligences'. Through this, each student is given an opportunity to come at par with what is required. Special classes for weaker students, and helping those who need special attention, in one or the other subject, leads to an overall, broad and complete educational experience by the child.

Life Skills

Life skills training is an efficacious tool for empowering the children to act responsibly, take initiative and take control of their lives. Life skills include psychosocial competencies and inter personal skills that help children make decisions, solve problems, think deeply, communicate effectively, build healthy relationships, empathise with others and cope with managing their lives in a healthy and productive manner. The school teach life skills through methods, like class discussions, story telling, brainstorming, role plays, audio-visual activities etc. We encourage children to learn from their environment by observing how others behave and what consequences arise from their behaviour. Thus, teaching outside the classroom becomes as important as that within the walls. Excursions, field trips and visits to various organisations like old age home, blind school etc. are conducted for this purpose. Learning, thus, becomes not only a fun filled activity, but also enriching one.

Beyond Academics

GURUKULAM Extra Curricular Activities

Co-curricular activities and sports are an integral part of our curriculum. They bring out the latent talents of students and enable them to face the challenges that await. These activities culminate in the development of a harmonious personality. Activities at Gurukulam include - Declamation, Dance, Music, Quizzes, Poster Making, Extempore, Recitation and many more.

Houses

To systematise co-curricular activities and to inculcate the feeling of healthy competition, we have divided our students into four houses - Aakash, Agni, Jal and Prithvi. Various inter-house activities and competitions are held throughout the year. We encourage and organise different activities for Art & Craft, Computer Science, Yoga, Dramatics, Creative Writing, Music and Dance.

Sports

Sports and games are a regular feature at Gurukulam. Sports teachers and coaches prepare the students to participate in indoor and outdoor games at various levels. Ample opportunities are provided to participate in adventure sports like Gliding, Rock Climbing, River Crossing etc.

Celebrations / Picnics

We celebrate all festivals and involve all students right from Nursery. They are encouraged to decorate the school with handicrafts for Janamastmi, Diwali, Holi, Christmas and other occasions.

Infrastructure & Facilities

Classrooms:

Adequately ventilated, spacious and attractive classrooms, equipped with colourful and child friendly furnishings make it an ideal place for learning.

Modern Computer Lab:

A well-equipped computer lab with appropriate software and seamless internet connectivity helps students to explore the world.

Sports Facilities:

Sports and Games are an integral part of childhood. The Sports Academy at Gurukulam focusses on both indoor as well as outdoor sports. Skating, Karate, Yoga, Gymnastics, Kho-Kho, Cricket & Football are just a few of them.

Art & Music:

An acoustically designed activity room with adequate facilities for music, dance and drama ensure that the children's creative side always finds expression and exposure.

Splash Pool:

A modern splash pool with rain & sea theme equipped with water toys provides unending fun.

Transport Facility:

Latest & adequate fleet of vehicles provides a safe pick & drop facility for students.

Power Back up:

100% power back-up has been made available through an eco-friendly generator to ensure an uninterrupted learning process.

Admission Criterion

Minimum Age (as on 1st April of Admission Year): Nursery - 3 Years, LKG - 4 Years, UKG - 5 Years. From Class Ist onwards there will be a written test for students seeking admission. Only those students who clear the written test will be admitted.

Your child's

Journey

To a great

future

begins here
